

# Name of inhabited places

Most of the place names appearing on the map are names of inhabited places. The official name of a municipality is in normal characters, while the usual name (former municipality, village, neighbourhood, sector, hamlet, locality) is in italics. In some cases, the usual name is indicated under the official name, in parentheses. Names of uninhabited places are also indicated as geographical references. The place names were up to date in April 2010.

## To find the name of an inhabited place

You should first consult the detailed map  of the tourist region of this place.

Use the tool “Rechercher” (Research) of Acrobat  Reader. This will allow you to search the words and bring your view directly to the name you are looking for. In order to facilitate your research we suggest to zoom on the map at 200%.
